Note:

The management assessed that the fair value of cash and cash equivalents, Investments, Loans and other financial liabilities approximate the carrying amount largely due to short-term maturity of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties.

c) Fair value hierarchy

Financial assets and financial liabilities measured at fair value in the Statement of Profit and Loss are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: unobservable inputs for the asset or liability

The following table shows the Levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis at 31 March 2021:

| As at 31 March 2021 | Level 1 | Level 2 | Level 3 | Total |
|------------------------------------|---------|---------|---------|-------|
| Financial assets: | | | | |
| Investments in liquid mutual funds | - | - | - | - |
| | - | - | - | - |

Computation of fair values

Investments in mutual funds are short-term investments made in growth funds whose fair value is considered as the net asset value (NAV) declared by their respective fund houses on a daily basis. NAV represents the price at which the fund house is willing to issue further units in such fund/the price at which the fund house will redeem such units from the investors. Thus the declared NAV is similar to fair market value for these mutual fund investments since transactions between the investor and fund houses will be carried out at such prices.

The above disclosures are presented for investments measured at fair value. Carrying value of cash and cash equivalents, other bank balances, trade

receivables, other current financial assets, trade payables and other current financial liabilities represents the best estimate of fair value.
